Independent Auditors' Report

To the Honorable County Council of Montgomery County, Maryland:

We have audited the accompanying general purpose financial statements (identified as Exhibits A-1 through A-12 in the accompanying Table of Contents) and the combining, individual fund, and individual account group financial statements and schedules (identified as Exhibits B-1 through I-4 in the accompanying Table of Contents) of Montgomery County, Maryland (County) as of and for the year ended June 30, 2000. These financial statements and schedules are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audit. We did not audit the financial statements of the Montgomery County Public Schools, the Montgomery Community College, the Montgomery County Revenue Authority, the Housing Opportunities Commission of Montgomery County, and the Bethesda Urban Partnership, Inc., the total assets and revenues of which represent 100 percent of the total assets and revenues of the County's discretely presented component units. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion on the financial statements, insofar as it relates to the amounts included for those entities, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the County at June 30, 2000, and the results of its operations and cash flows of its proprietary fund types and nonexpendable trust fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the combining, individual fund, and individual account group financial statements and schedules referred to above present fairly, in all material respects, the financial position of each of the individual funds and account groups of the County as of June 30, 2000, and the results of operations of such funds and the cash flows of its proprietary fund types and nonexpendable trust fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 22, 2000 on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be read in conjunction with this report in considering the results of our audit.

The introductory, statistical, and index sections of the report are presented for purposes of additional analysis and are not required parts of the financial statements of the County. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion on it.

Montgomery County, Maryland (County), is a charter government under the constitution and general laws of the State of Maryland (State). The charter provides for separate legislative and executive branches with the legislative responsibility vested in an elected nine-member county council and the executive responsibility vested in an elected county executive. Montgomery County provides its citizens with services in the areas of general government, public safety, public works and transportation, health and human services, education, culture and recreation, community development and housing, and environment.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Montgomery County conform to generally accepted accounting principles (GAAP) applicable to local government entities. The following is a summary of the significant policies:

A) Reporting Entity

As required by GAAP, these financial statements present the primary government and its component units, which are entities for which the primary government is considered financially accountable. The Montgomery County, Maryland, reporting entity is determined by criteria established by the Governmental Accounting Standards Board (GASB). The judgment to include or exclude activities is dependent on evaluation of the GASB criteria. Various departments and agencies governed directly by the County Executive and the County Council of Montgomery County are included in the reporting entity as the primary government and are referred to hereafter as the Primary Government. The component units (as discussed below) are included in the reporting entity because the Primary Government approves the budget requests, provides a significant amount of funding for each of these units, and/or appoints the governing boards.

Based on the evaluation of the fiscal activities of the Montgomery County Public Schools (MCPS), Montgomery Community College (MCC), the Montgomery County Revenue Authority (MCRA), the Housing Opportunities Commission of Montgomery County (HOC), and the Bethesda Urban Partnership, Inc. (BUPI), all are included in the Montgomery County, Maryland, reporting entity (County) as discretely presented component units. The results of this analysis determined that Montgomery County Government (MCG) is the Primary Government. The results of the evaluation also concluded that the Maryland-National Capital Park and Planning Commission (M-NCPPC), Washington Suburban Sanitary Commission (WSSC), Washington Suburban Transit Commission (WSTC), Washington Metropolitan Area Transit Authority (WMATA), Metropolitan Washington Council of Governments (COG), and Northeast Maryland Waste Disposal Authority (NEMWDA) are considered joint ventures. Disclosure of the County's participation in these joint ventures is presented in Note 14.

The component unit columns in the combined general purpose financial statements include the financial data of the five discretely presented component units. Component unit columns are presented separately to emphasize that these units are legally separate from the Primary Government. Each discretely presented component unit has a June 30 fiscal year end.

MCPS provides public education in kindergarten through twelfth grade to children residing within Montgomery County. Members of the Board of Education are elected by the voters. (One nonvoting student member is elected by secondary students.) However, MCPS is fiscally dependent upon the Primary Government because the Primary Government approves the budget, levies taxes to provide the majority of the fiscal support, and issues debt for construction of school facilities.

MCC provides educational services to County citizens by offering two-year associate degrees and a continuing education program. MCC is responsible for post secondary education within the government's jurisdiction. The Montgomery County Board of Community College trustees is the governing authority. The State Governor appoints the trustees from a list of candidates supplied by a nominating committee. The nominating committee is controlled by the County Executive and the County Council. Therefore,

essentially the Primary Government and the State Governor must agree upon the trustees to serve on the College's Governing Board. In addition, the Montgomery County Council reviews and approves both the operating and capital budgets and budgetary amendments of MCC. The Primary Government contributes substantial funding for both the operating and capital budgets, as well as issues debt for the construction of college facilities.

MCRA is governed by a five-member Board of Directors. All members are appointed by the County Executive subject to the confirmation of the County Council. The County Council approves the capital budget of MCRA. MCRA approves its own operating budget. MCRA is an instrumentality of the Primary Government for the purpose of constructing, improving, and maintaining self-sustaining projects devoted to public use, good or welfare.

HOC is governed by seven commissioners who are appointed by the County Executive with the approval of the County Council. In addition, the County Council provides for a subsidy to the operating budget of HOC and guarantees a relatively small portion of its debt (up to \$50,000,000). The HOC operating budget approval occurs on a project basis, with the County Council having authority to approve project budgets that include County funding. HOC presents its proposed budget to the Council for review and comment only, as required by Article 44A, Section 2 of the Annotated Code of Maryland. Even though there is a large dependence on the Federal Department of Housing and Urban Development (HUD), HOC has sufficient financial accountability to the Primary Government to be included as a component unit.

BUPI has its entire eleven-member Board of Directors appointed by the County Executive with the approval of the County Council. The primary purpose of BUPI, a not-for-profit corporation, is to execute service contracts for the benefit of one of the Primary Government's special taxing districts (Bethesda Urban District Special Revenue Fund). Substantially all of the funding of this corporation (with the exception of investment earnings on idle funds) is granted through the Primary Government's operating budget. The County Council approves the BUPI operating budget on an annual basis and is able to modify it in a manner similar to the way Primary Government agency budgets are modified.

B) Basis of Presentation - Fund Accounting

The accounts of the County are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise assets, liabilities, fund balance/retained earnings, revenues, and expenditures/expenses. The account groups are concerned only with the measurement of financial position and do not measure results of operations. The various funds are summarized by type in the financial statements. Interfund eliminations have not been made in the aggregation of this data. The following fund types and account groups are used by the County:

PRIMARY GOVERNMENT

Governmental Funds:

General Fund - This fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally or administratively restricted to expenditures for specified purposes.

Debt Service Fund - This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Special assessment activities are accounted for in the Debt Service Fund for practical purposes because they differ significantly from traditional special assessment practices. The principal and interest collected annually on such assessments are used as a partial source of funding for debt service on all outstanding general obligation road and storm drainage bonds. The remaining debt service requirement is financed from current governmental revenues and transfers, generally from the General Fund.

Capital Projects Fund - This fund accounts for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Proprietary Funds:

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation/amortization and interest) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds - These funds are used to account for the financing of goods or services provided by one department or agency to other departments or to other governmental units, on a cost-reimbursement basis.

Fiduciary Funds:

Trust and Agency Funds - These funds are used to account for assets held by Montgomery County in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. These include expendable trust, nonexpendable trust, pension trust, investment trust, and agency funds. The pension trust, investment trust, and nonexpendable trust funds are accounted for and reported on the same basis as proprietary funds because capital maintenance is critical. Expendable trust and agency funds are accounted for and reported on the same basis as governmental funds.

Account Groups:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the County, other than those accounted for in the proprietary and fiduciary funds.

General Long-Term Debt Account Group - This account group is established to account for all long-term obligations of the County except those accounted for in the proprietary and fiduciary funds. These long-term obligations include, but are not limited to, long-term bonded debt, long-term obligations related to compensated absences, claims and judgments, and equipment notes.

COMPONENT UNITS

MCPS has a variety of governmental, proprietary, and fiduciary funds, which include capital projects, enterprise, internal service, and pension trust funds in addition to general fixed assets and general long-term obligations account groups. MCC accounts for its operations within a fund structure consistent with generally accepted accounting principles for colleges and universities which were promulgated by GASB, and has adopted the "AICPA College Guide Model." MCRA, HOC, and BUPI account for their fiscal operations on a proprietary basis of accounting.

C) Basis of Accounting

The modified accrual basis of accounting is followed by the governmental funds (General, Special Revenue, Debt Service, and Capital Projects) and expendable trust and agency funds. Governmental funds and expendable trust funds are accounted for on a current financial resources measurement focus. Only current assets and current liabilities are generally included on their balance sheets. Their operating statements present sources (revenues and other financing sources) and uses (expenditures and other financing uses) of "available financial resources" during a period. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e., both measurable and available). "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt which are recorded when due. Depreciation is not recorded.

In applying the susceptible to accrual concept to property taxes, the County defines "available" to mean received within thirty days after year-end. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts are paid to the County; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are nearly irrevocable (i.e., revocable only for failure to comply with prescribed compliance requirements, e.g., equal employment opportunity). These monies are reflected as revenues at the time of receipt or earlier if they meet the "available" criterion.

Licenses and permits, income taxes (distributed by the State), charges for services, fines and forfeitures, special street assessments, and miscellaneous revenues (except earnings on investments) are recorded as revenues when received in cash because they are generally not measurable until actually received. Also, the County has determined that the differences between recording on a cash versus an accrual basis are immaterial, except for income taxes. The final fiscal year income tax payment (which is normally received in August or September after the close of the fiscal year) is recorded as income taxes receivable with an offset to "deferred revenue." Revenue is not recognized in the current fiscal year since this final income tax payment is not measurable and available for use in the year. In the State of Maryland, the State has assumed the responsibility for the collection of all income taxes and for distributing these collections to the respective counties. The counties set their individual tax rates within limits provided by

State law. However, collections and pursuit of delinquent taxes are the responsibility of the State. There is currently no timely reporting process by which the State notifies the counties of outstanding and delinquent taxes or liabilities related to pending refunds. Investment earnings are recorded as earned since they are measurable and available. Montgomery County bills service receivables at the time services are rendered. At year-end, deferred revenue is reflected in governmental funds if collections from billings do not meet the "available" criteria. Montgomery County does not operate any utilities. Water and sewer services are provided by WSSC through a joint venture relationship (see Note 14). Other common utilities are provided by regulated private industry.

The accrual basis of accounting is utilized by proprietary (enterprise and internal service), the pension trust, investment trust, and nonexpendable trust funds. Proprietary, pension trust, investment trust, and nonexpendable trust funds are accounted for on a flow of economic resources measurement focus. Under this method revenues are recorded when earned, expenses are recorded at the time liabilities are incurred, and allocations of interest and depreciation/amortization are recorded for the fiscal period.

GASB Statement 20 allows governments to choose not to implement, in proprietary fund types, pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989 (provided that this is applied on a consistent basis) or to continue to follow FASB standards for these fund types. The County has elected not to implement FASB pronouncements issued after that date for any proprietary fund type activity of the Primary Government.

D) Budgets

The "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (non-GAAP Budgetary Basis) - General, Special Revenue, Debt Service, and Capital Projects Fund Types" is prepared on a basis consistent with the legally adopted budget. Under this method, encumbrances outstanding are charged to budgetary appropriations and considered expenditures of the current period.

Annual appropriated operating budgets are adopted for the General Fund, Special Revenue Funds (except the Forest Conservation Fund), the Debt Service Fund, Enterprise Funds, and the Liability and Property Coverage Self-Insurance Internal Service Fund. The Capital Projects Fund budget is appropriated at the project level on a biennial basis. All unencumbered appropriations except for those related to Federal and State grants and those related to the Capital Projects Fund lapse at year-end.

Encumbrance accounting, under which purchase orders and contracts awarded (for which goods and services have not been received at year-end), and other commitments for the expenditure of funds are recorded in order to reserve that portion of the appropriation, is employed in the governmental and proprietary funds. In the governmental funds, encumbrances are reported as a reservation of fund balance because they do not constitute expenditures or liabilities. In the Proprietary Funds, encumbrances are eliminated for financial statement presentation since neither goods nor services have been provided.

E) Cash and Investments

Pooled Cash and Investments

The County sponsors an external investment pool. Participants in the pool include the County, certain component unit agencies, and other legally separate entities. The portion of pooled cash and investments applicable to other legally separate entities (not included in the County reporting entity) is accounted for in a separate Investment Trust Fund. During the year, investments are stated at cost plus accrued interest and are adjusted for amortization of premiums and accretion of discounts. At year-end, investments in the pool are adjusted to fair value. See Note 3 for additional information.

Non-pooled Investments

Proprietary Fund Types

The Solid Waste Disposal Enterprise Fund investment in a nonparticipating investment contract is stated at cost plus accrued interest, which approximates fair value.

Fiduciary Fund Types

Expendable Trust - Deferred compensation investments held by fiscal agents are stated at fair value.

Pension Trust - Pension Trust Fund investments for the County are comprised of an actively managed pool of equities, bonds, real estate commingled funds, and short-term securities managed by professional investment advisory firms under contract with the Board of Investment Trustees. The Pension Trust Fund invests in derivatives, in accordance with the policy of the Board of Investment Trustees, which can include asset-backed securities, collateralized mortgage obligations, bond index future contracts, forward currency contracts, and floating rate securities (see Note 16). However, the policy prohibits the investment in derivatives for the purpose of leveraging its investment portfolio. The Pension Trust Fund is also not prohibited from participating in securities lending transactions (see Note 3). Investments are stated at fair value.

Nonexpendable Trust - Investments of the Housing Opportunities Commission (HOC) Treasury Bonds Nonexpendable Trust Fund (a Primary Government fund) are stated at fair value.

MCPS - Investments include primarily Pension Trust Fund investments which consist of a group pension immediate participation contract carried at contract value and separate funds carried at fair value. Equity and bond securities are valued at closing sales prices as reported on national or international securities exchanges at current exchange rates, or at closing bid prices as reported by investment dealers. The fair value of mortgages and real estate investments are based on independent appraisals.

F) Inventories

Inventories are valued at lower of cost (principally first-in, first-out) or market in the Enterprise Funds (Liquor) and consist of goods held for sale. Inventories valued at cost (principally moving-average) are carried in the Internal Service Funds (Motor Pool) and the governmental type funds. All inventories are maintained by perpetual records and adjusted by annual physical counts. Inventories in the governmental funds and Motor Pool Internal Service Fund consist of items held for consumption. The cost is recorded as an expenditure at the time individual items are withdrawn for use. In governmental funds, the reserve for inventory is equal to the amount of inventory to indicate that portion of fund balance which is not available for funding other expenditures.

MCPS - Inventories are valued at the lower of cost or market. Maintenance supplies, textbooks, and instructional materials are stated at cost determined by the average cost method. Transportation supplies are stated at cost determined by the first-in, first-out method. Commodities received from the U.S. Department of Agriculture (USDA) are valued at fair market value and recorded as revenue when consumed. The cost of all inventories is recorded as an expenditure at the time the individual inventory items are consumed. The reserve for inventory in the MCPS General Fund is equal to the amount of inventory to indicate that portion of fund balance which is not available for funding other expenditures.

MCC - Inventories are valued at lower of cost (first-in, first-out) or market, and consist of supplies and bookstore items.

G) Prepays

Payments made to vendors for services that will benefit periods beyond the end of the fiscal year are recorded as prepaids.

H) Property Liens Acquired at Tax Sale

This asset account includes costs, such as delinquent taxes, interest, penalties, and advertising costs, paid at public auction which place the County in a position of primary lien-holder against the related property.

I) Fixed Assets

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, generally the Capital Projects Fund, and the related assets are reported in the General Fixed Assets Account Group. All purchased fixed assets are valued at cost where historical records are available and at estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Public domain ("infrastructure") general fixed assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are capitalized at cost and included in the General Fixed Assets Account Group.

Assets in the General Fixed Assets Account Group are not depreciated. Depreciation of buildings, equipment, and vehicles in the Proprietary Fund Types of the primary government and component units is computed over the assets' estimated useful lives using the straight-line method.

Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expense incurred from the date of the borrowing until completion of the project with interest earned on invested proceeds over the same period.

J) Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources has been determined by the County to be immaterial and is therefore not reported as an expenditure and a liability of the governmental fund that will pay the leave. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the General Long-Term Debt Account Group along with the corresponding employer's share of social security and medicare taxes. No expenditure is reported for these amounts until they are actually paid. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as benefits accrue to employees. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

K) Long-Term Obligations

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion is reported in the General Long-Term Debt Account Group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

L) Fund Equity

Contributed capital is recorded in proprietary funds that have received capital grants or contributions from developers, customers, or other funds. Reserves represent those portions of fund equity which cannot be appropriated for expenditure or are legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

MCPS - Net assets of Public Schools' component unit represents the portion of MCPS's equity attributable to its component unit organization, that is accounted for on the proprietary basis of accounting.

M) Property Taxes

Real and personal property taxes are levied at rates enacted by the County Council in the tax levy resolution on the assessed value as determined by the Maryland State Department of Assessments and Taxation. State law stipulates that the constant yield tax rate furnished by the Maryland State Department of Assessments and Taxation cannot be exceeded without public notice of the intent to exceed, and only after public hearings. The general property tax rate was increased above the constant yield rate for FY00.

The County Charter requires an affirmative vote of seven members of the Council to increase the real property tax rate to a level that will produce total revenues exceeding the total revenue produced by the tax on real property in the preceding year, plus 100 percent of any increase in the Consumer Price Index with exemptions for revenue from newly constructed, rezoned property and development district tax to fund capital improvement projects. The tax rate did not exceed the Charter limit for FY00.

Generally, property taxes are levied as of July 1 and become delinquent on October 1. Interest and penalty amounts are assessed annually at 20 percent on delinquent tax bills. Effective July 2000, owner-occupied residential property owners will pay their tax on a semi-annual schedule; the first and second installments are due September 30, 2000 and December 31, 2000, respectively. Taxpayers may opt to make both semi-annual payments on or before September 30, 2000. For FY01, there is no service charge associated with participation in the semi-annual payment program.

The County collects delinquent real property taxes through a public tax sale. Tax liens, representing delinquent taxes on real property are sold in random groups, utilizing a sealed bid process, on the second Monday in June, when taxes have remained overdue since the preceding October 1 or in the case of a semi-annual schedule, January 1.

In order to make real property tax bills simpler and easier to understand, the General Assembly, under Chapter 80 of the Acts of 2000, requires that property tax rates on real property be based on a full cash value assessment, instead of the current 40 percent value. As a result, on October 1, 2000, real property tax rates will be reduced to 40 percent of the rate effective July 1, 2000. The property taxes owed will remain the same unless changed by some other State or local legislative action.

N) Memorandum Only - Total Columns

Total columns on the Combined Financial Statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in cash flows in conformity with GAAP. Such data is not comparable to a consolidation.

O) Statement of Cash Flows

For Statement of Cash Flows reporting purposes, the County has defined "cash equivalents" as short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition. The balance sheet classification for "cash and cash equivalents" in the Statement of Cash Flows includes the following: "Equity in pooled cash and investments," "Cash," "Cash with fiscal agents," "Investments – cash equivalents," "Restricted Equity in pooled cash and investments," "Restricted Cash," "Restricted Cash with fiscal agents," and "Restricted Investments - cash equivalents," for proprietary fund types (enterprise and internal service funds) and "Cash and cash equivalents - nonexpendable trust" for fiduciary fund types (nonexpendable trust fund).

P) Accounting Changes

PRIMARY GOVERNMENT

The following changes in fund structure occurred during FY00:

- As of year-end, the Storm Drainage Maintenance Special Revenue Fund has been closed to the General Fund. However, there was no fund balance to be transferred to the General Fund, and therefore no related transfer has been reflected in the accompanying financial statements.
- See Note 11E for accounting changes and/or corrections of errors impacting beginning fund equities.

COMPONENT UNITS

See Note 11M for accounting changes impacting beginning fund equities.

NOTE 2. LEGAL COMPLIANCE

A) Budgetary Approval

Pursuant to the Montgomery County Charter, the Capital Improvements Program (CIP), is presented to the County Council by January 15 in even numbered years. An Amended CIP is presented to the County Council by January 15 in odd numbered years. The annual capital budget is presented to the County Council by January 15 of every year and the operating budget is presented to the County Council by March 15 of every year. The County Council holds public hearings and, pursuant to the County Charter, an annual appropriation resolution must be passed by the County Council by June 1. This resolution becomes effective for the one-year period beginning the following July 1, and provides the spending authority at the department level in three major categories (personnel costs, operating and capital outlay) for the operations of the County Government with the unencumbered appropriation authority expiring the following June 30. Encumbrances are carried forward to the subsequent fiscal year and are reserved as part of the current fiscal year's fund balance. The capital projects budget is approved at the project level. The unencumbered appropriation of the CIP budget is reappropriated in the following year's budget unless specifically closed out by County Council action.

The County Executive has authority to transfer appropriations within departments up to 10 percent of the original appropriation. Transfers between departments are also limited to 10 percent of original appropriation and require County Council action. During the operating year the County Council may adopt a supplemental appropriation after holding a public hearing; however, supplemental appropriations enacted during the first half of the fiscal year must be either emergency in nature or to comply with, avail the County of, or put into effect the provisions of Federal, State or local legislation or regulation. During FY00, the County Council increased the operating budget through supplemental appropriations by \$36,315,270. In addition, supplemental appropriations increased the CIP budget by \$46,274,000.

MCPS - During FY00, supplemental appropriations increased the operating budget by \$2,176,048 and increased the capital budget by \$15,687,000.

B) Budgetary Presentation

The "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (non-GAAP Budgetary Basis) - General, Special Revenue, Debt Service, and Capital Projects Fund Types" is prepared on a basis consistent with the legally adopted budget. Under this method, encumbrances outstanding are charged to budgetary appropriations and considered as expenditures of the current period. The "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - All Governmental Fund Types, Expendable Trust Funds and Discretely Presented Component Unit" is prepared on a basis consistent with GAAP where encumbrances are considered a reservation of fund balance and charged to expenditures in the period in which goods or services are received.

NOTE 3. CASH AND INVESTMENTS

A) Authorization and Balances

The Montgomery County reporting entity total cash and investments as of June 30, 2000, totaled \$4,312,481,634, of which \$3,126,134,419 related to the Primary Government, as presented below and in the combined balance sheet. These funds are held in several pools, various non-pooled investments, and cash funds. The following is a schedule of total cash and investments:

<u>Balance Sheet Amounts:</u>	Primary Government	Component Units	Total Reporting Entity
Equity in pooled cash and investments	\$ 757,433,853	\$ 48,148,601	\$ 805,582,454

Primary Government

External Investment Pool - The County, through its external investment pool, maintains an active and sophisticated cash and investment management program. The primary objectives of the program are the preservation of capital, providing liquidity to meet financial obligations, and maximization of the investment yield on short-term working capital. Working capital is managed pursuant to the Annotated Code of Maryland, the County Code, and the County's investment policies as approved by the County Council. The County is authorized to invest in: a) obligations for which the United States has pledged its full faith and credit for the payment of principal and interest, b) obligations that a federal agency or instrumentality issues in accordance with an act of Congress, or c) repurchase agreements that any of the foregoing listed obligations secures. Cited statutes also authorize investments in bankers' acceptances, secured certificates of deposit issued by Maryland banks, commercial paper of the highest investment grade and in money market funds whose portfolio is operated consistent with the Securities and Exchange Commission rule 2a-7. The County requires that these money funds invest only in obligations that a federal agency or instrumentality issues in accordance with an act of Congress and repurchase agreements collateralized by an obligation of the United States, its agencies or instrumentalities. The average maturity of the County's working capital portfolio is generally less than six months.

These same statutes require that securities underlying certificates of deposit and repurchase agreements have a market value of at least 102 percent of the cost of the investment. A third party custodian holds the collateral underlying all repurchase agreements. Appropriate sections of these cited statutes also require that funds on deposit in financial institutions be fully secured. The form of such security shall be in compliance with State statute and the County Code. Collateral pledged for protection of these banking deposits is held in the County's name in a third party depository, in the trust department of pledging banks, or insured by a surety bond by a State approved insurance company.

Deposits throughout the fiscal year were fully insured or collateralized. There were no unusual variations in the mix or volume of the investment portfolio throughout the year. The County was in compliance with all applicable investment statutes throughout the fiscal year.

The County's external investment pool is not subject to regulatory oversight by the SEC. However, the pool is subject to oversight by the County's investment committee.

Participants in the pool include the County, certain component unit agencies, and other legally separate entities. The equity position of each fund and component unit is reported as an asset by the funds and component units. The external portion of the pool (i.e., participation by legally separate entities) is reported as the Investment Trust Fund in the accompanying financial statements. Participants' shares sold and redeemed during the year are based on actual cost; participants' shares are then adjusted to fair value at year-end. The County has not provided or obtained any legally binding guarantees during the year to support the value of shares.

During the year, investments are stated at cost plus accrued interest and are adjusted for amortization of premiums and accretion of discounts. Investments are marked-to-market at year-end, since the pool does not meet the strict definition of "2a-7 like". The fair value of U. S. Government securities and mutual funds are determined using quoted market prices. Fair value of investments in commercial paper, bankers' acceptances, and repurchase agreements are estimated based on consideration of composite quoted market prices, and investments with comparable collateral or credit quality, as appropriate. For interest-bearing investments, market value quotations did not include accrued interest. However, for reporting purposes, immaterial amounts of accrued interest have been classified with the fair value of investments in the accompanying financial statements.

Investment income during the year, and the adjustment to fair value at year-end, is allocated to pool participants based upon their average equity in the pool. The adjustment to fair value for FY00 related to all County funds (exclusive of legally separate entities' accounts reflected in the Investment Trust Fund) has been recorded in the General Fund, since this amount is not material.

External investment pool amounts, included in the schedule above, are as follows:

During FY00, the County's external investment pool participated in the Maryland Local Government Investment Pool. The County's pension trust securities lending transactions, as described below, also participate in an external investment pool.

Securities Lending Transactions – Montgomery County Code and Maryland State statutes allow the Employees' Retirement System of Montgomery County, Maryland (MCERS) to participate in securities lending transactions, and MCERS has, via a Securities Lending Authorization Agreement, authorized State Street Bank and Trust Company (State Street) to lend its securities to broker-dealers and banks pursuant to a form of loan agreement.

During FY00, State Street lent, at the direction of Board of Investment Trustees, MCERS' securities and received cash (both United States and foreign currency), United States government securities, sovereign debt of foreign countries and irrevocable bank letters of credit as collateral. State Street did not have the ability to pledge or sell those collateral securities delivered unless there was a borrower default. Borrowers were required to deliver collateral for each loan in amounts equal to not less than 100% of the market value of the loaned securities. MCERS did not impose any restrictions during FY00 on the amount of the loans that State Street made on its behalf. State Street does not provide loss indemnification to MCERS. There were no failures by any borrowers to return loaned securities or pay distributions thereon during FY00. Moreover, there were no losses during FY00 resulting from default of the borrowers or State Street. During FY00, MCERS and the borrowers maintained the right to terminate all securities lending transactions on demand.

The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a collective investment pool. Because the pool does not meet the requirements of Rule 2a-7, investments are reported at fair value, based upon quotations provided by a recognized pricing service. The pool is not registered with the SEC. However, State Street, and therefore the pool it sponsors, is subject to the oversight of the Federal Reserve Board and the Massachusetts Commissioner of Banks. The fair value of the MCERS position in the pool is not the same as the value of the pool's shares.

The average duration of such investment pool as of June 30, 2000, was 74 days and the average weighted maturity was 485 days. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. On June 30, 2000, MCERS had no credit risk exposure to borrowers. The collateral held and the market value of securities on loan for MCERS as of June 30, 2000, were \$119,272,643 and \$116,270,807, respectively.

Component Units

The Annotated Code of Maryland requires that MCPS funds on deposit with a financial institution be fully secured by deposit insurance, surety bonds, obligations of the United States or its agencies, obligations of the State of Maryland or any of its agencies, or obligations of a county, other governmental authority or municipal corporation in the State of Maryland. Deposits throughout the year were fully insured or

collateralized. The Annotated Code of Maryland authorizes MCPS to invest in obligations for which the United States has pledged its faith and credit for the payment of principal and interest, in obligations issued

by a federal agency in accordance with an Act of Congress, in repurchase agreements collateralized at not less than 102 percent of the principal amount by obligations of the United States and its agencies, in money market mutual funds operated in accordance with SEC Rule 2a-7, or in any investment portfolio created under the Maryland Local Government Investment Pool. MCPS was in compliance with the above mentioned investment statutes throughout the fiscal year.

The MCPS Pension Trust Fund and the Employee Benefit Plan are authorized to invest in domestic and foreign equities, obligations of the United States and its agencies, securities issued or guaranteed by foreign government, marketable corporate bonds, collateralized obligations, commercial paper, bankers' acceptances, money market funds and pooled real estate investments. Fixed income investments are to be made primarily in issues rated "A" or better by Moody's and "A" or better by Standards and Poor's rating agencies.

The Annotated Code of Maryland and MCC's adopted investment policy authorize MCC to invest surplus cash in U.S. Treasury obligations, U.S. Government agencies and instrumentalities securities, collateralized certificates of deposit, repurchase agreements, the Maryland Local Government Investment Pool, and bankers' acceptances. In the opinion of MCC management, MCC is in compliance with all provisions of the Annotated Code of Maryland and MCC's investment policy.

* County deposits are the same as external investment pool deposits.

Deposits include bank accounts and non-negotiable certificates of deposit. Negative carrying amounts represent the excess of vendor checks written over amounts in the bank. The County's bank balances, and therefore the external investment pool's balances, were insured or collateralized with securities held by the County's agent in the County's name. Of the component unit bank balances, \$9,099,846 was insured or collateralized with securities held by the component units' agents in the component units' names, and \$23,203,273 was covered by collateral held by the pledging financial institution's trust department or agent in the component units' names. BUPI deposits of \$127,000 were uncollateralized at year-end.

Investments are categorized to give an indication of the level of risk assumed by the entity at year-end. Category "1" includes investment securities that are insured or registered or held by the County (including its component units) or its agent in the County's name. Category "2" includes uninsured and unregistered investment securities held by the counterparty's trust department or agent in the County's name. Category "3" includes uninsured and unregistered investment securities held by a counterparty, or by its trust department or agent but not in the County's name. Investment amounts included as Category "3" did not significantly fluctuate during the fiscal year. There were no unusual variations in form or amounts of investments or deposits, including insurance and location of collateral, throughout the fiscal year.

3) Cash on hand, with fiscal agents, and in safe deposit escrow:

	Primary Government	Component Units	Total Reporting Entity
Cash with fiscal agents	\$ 30,556,976	\$ 151,450,658	\$ 182,007,634

NOTE 4. RECEIVABLES

A) Accounts Receivable

The County calculates its allowance for doubtful accounts based on historical collection data and, in some cases, specific account analysis. The total allowance amounted to \$1,223,207 at June 30, 2000. This amount is comprised of allowances in the Liquor Enterprise Fund (\$308,809 - claims and returned checks), the Solid Waste Disposal Enterprise Fund (\$51,555 - charges for services), and the Parking Enterprise Funds (\$862,843 - parking fines).

B) Due From Other Governments

The total amount due from other governments at June 30, 2000, was \$38,213,998. A summary of amounts due by fund type and source of receivable is listed below:

The \$11,485,978 due from HOC to the Housing Initiative Special Revenue Fund represents mortgage loans, which are generally repayable based on project cash flows, specified future dates, or sales of the respective properties. Included in this amount is a loan of \$2,349,725, whose payments are based on cash flows. Terms of the note stipulate that the balance of the note will be forgiven at the termination of the ground lease in December 2035. To date the project has not generated cash flows. This loan is offset by deferred revenue. Also included in the amount above is a ground lease, upon which is located affordable housing owned by HOC. The ground lease provides for lease payments from HOC for \$1 per year for 84 years. Fund balance has been reserved for the remaining loans.

BUPI charges for services include \$2,082,021 earned under contracts with the County. MCRA rentals, concessions, leases, subsidies, and commitment fees include \$2,377,317 in lease revenue from the County.

NOTE 8. LONG-TERM DEBT

PRIMARY GOVERNMENT

A) General Obligation Bonds Payable

General obligation bonds are authorized, issued, and outstanding for the following purposes: (1) General County Facilities, (2) Roads and Storm Drainage, (3) Parks, (4) Public Schools, (5) Community College, (6) Consolidated Fire Tax District, (7) Mass Transit Facilities, (8) Water and Sewer Facilities, (9) Public Housing Facilities, (10) Urban Renewal, and (11) Parking Facilities. All bonds are valid and legally binding general obligations of Montgomery County, and constitute an irrevocable pledge of its full faith and credit and unlimited taxing power. Such bonds are payable from ad valorem taxes, unlimited as to rate or amount, on all real, tangible personal, and certain intangible property that is subject to taxation at full rates for local purposes in the County.

General obligation bonds that are carried in the enterprise funds (Bethesda Parking, Silver Spring Parking, and Solid Waste Disposal) are payable first from revenues of those funds.

Proceeds from general obligation bonds for public schools and the community college are appropriated by and remitted to MCPS and MCC (component units), respectively. For GAAP purposes, proceeds from debt issuance for these purposes and the related total amount remitted to the component units are reflected as other financing sources and other financing uses, respectively, in the accompanying financial statements. This amount, appropriated for use by the component units, is shown as a reconciling item between the budgetary and GAAP basis (see Note 2B).

In July 1992, \$242,500,000 in general obligation bonds, which mature in FY99 and beyond, were defeased. In August 1993, \$52,000,000 in general obligation bonds, which mature in FY04 and beyond, were defeased. In January 1998, \$64,500,000 in general obligation bonds, which mature in FY07 and beyond, were defeased. These defeasances were effected by placing the proceeds of general obligation refunding bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in these financial statements. As of June 30, 2000, \$37,500,000, \$52,000,000, and \$64,500,000, respectively, in general obligation bonds referred to above are considered to be defeased.

During FY00, no current or advance refundings of general obligation bonds by proprietary activities occurred.

General obligation bond issues outstanding as of June 30, 2000, are as follows:

Commercial paper bond anticipation notes (BANs) are authorized, issued, and outstanding as financing sources for capital construction and improvements. Changes in BANs during FY00 are as follows:

	Balance July 1, 1999	BANs Issued	BANs Retired	Balance June 30, 2000
BAN Series 1995 -C	\$ 4,000,000	\$ -	\$ 4,000,000	\$ -
BAN Series 1995 -D	26,000,000	-	26,000,000	-
BAN Series 1995 -E	50,000,000	-	50,000,000	-

BAN Series 1995 -H	-	90,000,000	-	90,000,000
Total	<u>\$ 80,000,000</u>	<u>\$ 210,000,000</u>	<u>\$ 130,000,000</u>	<u>\$ 160,000,000</u>

BAN Notes, Series 1995-C, totaling \$4,000,000; BAN Notes, Series 1995-D, totaling \$26,000,000; BAN Notes, Series 1995-E, totaling \$50,000,000; and BAN Notes, Series 1995-F, totaling \$50,000,000 were retired on February 2, 2000, with proceeds from general obligation bonds dated January 1, 2000.

The interest rate changes based on market conditions. During FY00, the rate of interest varied from 2.00 to 4.40 percent. Interest earned on BANs totaled \$6,143,114 during FY00, which was accounted for in the Debt Service Fund.

BANs amounting to \$210 million were issued during FY00 at varying maturities to a maximum of 270 days, under a program which originally matured on November 2, 1998, and has been extended to June 30, 2002. The County has reissued the notes upon maturity and will continue to do so, until they are replaced with long-term bonds. The County intends to issue long-term general obligation bonds in FY01, and intends to use the proceeds first to replace a portion of the \$160 million in BANs outstanding at June 30, 2000. In connection with these BANs, the County entered into a line of credit agreement on June 1, 1999, with Westdeutsche Landesbank Girozentrale, New York Branch, (the Bank) in which the County may borrow, on a revolving basis, up to \$200 million to pay the principal on the notes, and up to \$14.8 million to pay the interest. Any principal advances under the line of credit must be repaid by July 31, 2002. No amounts have been borrowed against this line of credit. Because the County has entered into a financing agreement that ensures the BANs can be refinanced on a long-term basis, these BANs are classified as long-term debt in the accompanying financial statements.

The amount of BANs authorized and unissued as of June 30, 2000, is \$173,718,000 per Resolution No. 13-294 dated October 10, 1995, as amended.

D) Other General Long-Term Debt

Changes in general long-term debt other than bonds and bond anticipation notes during FY00 are as follows:

	Balance July 1, 1999	Earned/ Additions	Used/ Payments *	Balance June 30, 2000
Compensated Absences	\$ 35,236,320	\$ 27,505,757	\$ 26,268,701	\$ 36,473,376

Due to Other Funds	3,856,570	-	250,000	3,606,570

* Includes non-monetary settlements and adjustments

E) Conduit Debt Obligations

Conduit debt obligations refer to certain limited-obligation revenue bonds or similar debt instruments issued by the County for the purpose of providing capital financing for a third party that is not part of the County's reporting entity (see Note 1A). From time to time, the County has issued Industrial Revenue Bonds and Economic Development Revenue Bonds for the purposes of financing or refinancing any costs of acquiring facilities for third party facility users or of refunding outstanding bonds. Facility users may be individuals, public or private corporations, or other entities. The bonds are secured by the facilities financed and are payable from the revenues or monies to be received by the County under loan agreements with the facility users and from other monies made available to the County for such purpose. The bonds do not constitute a debt or charge against the general credit or taxing powers of the County, the State, or any political subdivision thereof. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2000, there were forty-two issues of Economic Development Revenue Bonds outstanding. Of these, thirty-six were issued prior to July 1, 1996. The aggregate principal amount payable at June 30, 2000 for bonds issued prior to July 1, 1996 could not be determined; however, their original issue amounts totaled \$231 million. The principal amount payable at June 30, 2000, for bonds issued after July 1, 1996 totaled \$36 million.

F) Other Debt Obligations

In September 1998, the County entered into a \$1,800,000 long-term loan agreement with the Maryland Industrial and Commercial Redevelopment Fund (MICRF). In accordance with terms of the loan, the proceeds have been reloaned to a private corporation, for purposes of renovation and relocation of facilities to the County. If certain conditions are met, \$150,000 of the loan may be converted to a State grant. Although it is expected that the loan will be repaid by payments made by the private user, the loan is a full faith and credit obligation of the County. The principal amount payable at June 30, 2000, for this loan is \$1,689,553.

In March 1999, the County entered into a long-term loan agreement with Strathmore Hall in the amount of \$1,000,000 payable to the Capital Projects Fund in four installments of \$250,000 due during FY99 and on June 30, 2000, June 30, 2001, and June 30, 2002. The remaining liability of \$500,000 constitutes a long-term obligation of the Strathmore Hall Expendable Trust Fund, and is therefore reflected as a liability in the General Long-Term Debt Account Group.

On June 25, 1999, the County disposed of land owned by the Silver Spring Parking Lot District Enterprise Fund, through a lease with a third party, whose plans for this Urban Renewal Area (URA) met the County's specific development objectives, and also specific objectives of the URA. The lease provides for annual rent payments of one dollar per year for fifty-five years, with a bargain purchase option of one dollar at the end of ten years. If the bargain purchase option is not exercised by the tenth year of the lease, the property will convey outright to the lessee. If assets constructed on the leased land are sold or refinanced within the first ten years of the lease, the County is entitled to a portion of the sale or refinancing proceeds.

As a result of this lease, and pursuant to Section 60-2 of the Montgomery County Code, at the date of the transfer the County incurred an obligation to reimburse the Silver Spring Parking Lot District Enterprise Fund for the estimated fair market value of the property, which was valued at \$3.1 million. This obligation has not been satisfied with expendable resources as of June 30, 2000. The County will fulfill this obligation by future transfers of property and/or assets owned by the County. This obligation is therefore reflected as a receivable and liability by the Silver Spring Parking Lot District Enterprise Fund and the General Long-Term Debt Account Group, respectively.

G) Special Taxing Districts

Two development districts have been created in accordance with Chapter 14 of the County Code, the Montgomery County Development District Act enacted in 1994. The creation of these districts allows the County to provide financing, refinancing, or reimbursement for the cost of infrastructure improvements necessary for the development of land in areas with high priority for new development or redevelopment.

Pursuant to the Chapter 14, special taxes and/or assessments may be levied to fund the costs of bonds or other obligations issued on behalf of the respective district. Any bond issued under Chapter 14 is not an indebtedness of the County within the meaning of Section 312 of the Charter. Additionally, any bond issued must not pledge the full faith and credit of the County and must state that the full faith and credit is not pledged to pay its principal, interest, or premium, if any.

In December 1999, the County issued \$2.410 million in special obligation bonds on behalf of the Kingsview Village Center Development District, for which the County is authorized to issue up to \$4 million in special obligation bonds. Special taxes and assessments will be levied beginning in FY01 to repay such debt. The County is authorized to issue up to \$20 million in special obligation bonds for the West Germantown Development District; no such bonds have been issued or are outstanding at June 30, 2000.

COMPONENT UNITS

At June 30, 2000, the HOC revenue bonds, which are significant in relation to the total component unit long-term debt, are outstanding by type of bond as follows:

<u>Purpose</u>	
Multi-Family Mortgage Purchase Program Fund	\$ 337,281,758
Single Family Mortgage Purchase Program Fund	313,035,187
Total	<u>\$ 650,316,945</u>

Interest rates on the HOC Multi-Family and Single Family Mortgage Purchase Program Fund bonds ranged from 4.20 to 8.7 percent and 2.85 to 8.375 percent, respectively, as of June 30, 2000.

Pursuant to Section 2-103 of Article 44A of the Annotated Code of Maryland, the County may, by local law, provide its full faith and credit as guarantee of bonds issued by HOC in principal amount not exceeding \$50,000,000. Section 20-32 of the Montgomery County Code provides the method by which the County has implemented the guarantee. The debt service requirements by fiscal year for the HOC debt guaranteed by the Primary Government are as follows:

Fiscal Year Ending June 30	Guaranteed Revenue Bond Requirements		
	Principal	Interest	Total
2001	\$ 495,000	\$ 1,315,252	\$ 1,810,252

* Includes accretions

** Includes bond discounts

The County is not liable in any manner for the remaining debt of HOC or any debt of MCPS, MCC, or MCRA. BUPI has no long-term debt.

HOC has issued a number of individual bonds for financing of multi-family developments for which HOC has no legal liability for repayment or administration, and accordingly, the bonds are not included in the accompanying financial statements. HOC participates in such issuances in order to increase the availability of affordable housing in the County. The bonds outstanding are summarized below:

Bonds outstanding, July 1, 1999	\$ 394,021,120
Redemptions during the year	(19,311,576)
New issuances during the year	3,000,000
Bonds outstanding, June 30, 2000	<u>\$ 377,709,544</u>

NOTE 9. LEASES

The County leases building and office facilities and other equipment under non-cancelable operating leases. Lease agreements typically provide for automatic termination on July 1 of any year in which funds to meet subsequent rental payments are not appropriated. Total costs for operating leases were approximately \$9,958,000 for FY00. Future minimum lease payments under significant non-cancelable operating leases are as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2001	\$ 6,772,000
2002	6,392,000
2003	6,240,000
2004	6,094,000
2005	6,107,000
2006 and thereafter	35,378,000
Total	<u>\$ 66,983,000</u>

NOTE 10. SEGMENTS OF ENTERPRISE ACTIVITIES

NOTE 11. FUND EQUITY

PRIMARY GOVERNMENT

A) Contributed Capital

Enterprise and Internal Service Funds record the following as contributed capital: Cash transfers of equity from other funds, grants awarded for the acquisition of land, buildings, and equipment, and such assets contributed from other funds. The following schedule shows changes in contributed capital during the fiscal year:

	Balance July 1, 1999	Asset Donations	Balance June 30, 2000
Enterprise:			
Liquor	\$ 861,657	\$ -	\$ 861,657
Community Use of Public Facilities	4,981	-	4,981
Internal Service:			
Motor Pool	12,879,526	-	12,879,526
Liability and Property Coverage Self-Insurance	270,651	-	270,651
Total Contributed Capital	<u>\$ 14,016,815</u>	<u>\$ -</u>	<u>\$ 14,016,815</u>

B) Reservation of Retained Earnings

Retained earnings reserved at year-end for purchase/construction commitments relating to the future acquisition or construction of capital assets are as follows:

Enterprise Funds	Total
Liquor	\$ 4,825
Solid Waste Disposal	2,699,599
Silver Spring Parking	2,562,988
Bethesda Parking	7,389,940
Wheaton Parking	379,673
Total Reservation of Retained Earnings	<u>\$ 13,037,025</u>

C) Reservation of Fund Balance

Fund balance reserves, representing those resources that are for a specific purpose and that are, therefore, not available for appropriation for other purposes, are as follows:

Purpose of Reservation	General	Special Revenue	Capital Projects	Trust	Total
Encumbrances	\$ 33,029,310	\$ 7,007,595	\$ 129,803,904	\$ -	\$ 169,840,809
Long-term receivables *	-	32,913,241	11,560,081	-	44,473,322
Inventories	2,249,958	-	895,797	-	3,145,755
Prepays	946,416	397,250	2,689	321	1,346,676
Unspent Fire-Rescue grant	-	1,420,913	-	-	1,420,913
Employees' pension benefits	-	-	-	2,033,205,263	2,033,205,263
External investment pool participants	-	-	-	19,523,179	19,523,179
Total Reserved Fund Balance	<u>\$ 36,225,684</u>	<u>\$ 41,738,999</u>	<u>\$ 142,262,471</u>	<u>\$ 2,052,728,763</u>	<u>\$ 2,272,955,917</u>

* Long-term receivables in the Grants Special Revenue Fund have not resulted in revenue recognition, and are, therefore, offset by deferred revenue rather than reserved fund balance.

D) Unreserved Fund Balance Designations

Unreserved fund balance designations are as follows:

Purpose of Designation	General	Special Revenue	Trust	Total
Transfers to Capital Projects Fund	\$ 36,001,151	\$ 8,086,873	\$ 574,082	\$ 44,662,106
Trust activities	-	-	229,399,394	229,399,394
Subsequent years' expenditures	124,630,365	18,464,016	-	143,094,381
Other activities	4,082,900	-	-	4,082,900
Total	<u>\$ 164,714,416</u>	<u>\$ 26,550,889</u>	<u>\$ 229,973,476</u>	<u>\$ 421,238,781</u>

E) Reconciliation of Beginning Fund Equities

Fund balance of the Housing Initiative Special Revenue Fund at June 30, 1999, has been restated and increased by \$677,607 to reflect prior year receipts against a mortgage loan, where GAAP deferred revenue had inadvertently not been reduced and related revenues increased.

During FY00, the Motor Pool Internal Service Fund recreated and verified the accuracy of its fixed asset records, due to lack of certain historical detailed records. This process resulted in a restatement and reduction of beginning balances in the fund as follows:

Fixed assets	\$ (3,138,295)
Accumulated depreciation	1,935,723
Total restatement of beginning retained earnings	<u>\$ (1,202,572)</u>

F) Deficit Fund Balance

The \$85,221,307 unreserved deficit in the Capital Projects Fund represents a timing difference between the construction of capital assets and the planned FY01 issuance of long-term debt to fund that construction.

G) Operating Transfers In (Out)

The following table reconciles the difference between Operating Transfers In and Operating Transfers (Out) as reflected in the Combined Financial Statements:

"Operating transfers in" on Exhibit A-3	\$ 247,050,779
"Operating transfers (out)" on Exhibit A-3	(233,661,714)
"Operating transfers in" on Exhibit A-5	7,151,886
"Operating transfers (out)" on Exhibit A-5	(20,540,951)
Difference	<u>\$ -</u>

H) Operating Transfers In (Out) - Between Component Units and Primary Government

The following table reconciles the difference between the Primary Government's Operating Transfers In (Out) to Component Units and the Component Units' Operating Transfers In (Out) from the Primary Government as reflected in the Combined Financial Statements:

"Operating transfers (out) - component units" on Exhibit A-3	\$ (1,048,305,484)
"Operating transfers in - component units" on Exhibit A-3	192,696
"Operating transfers in - primary government" on Exhibit A-3	981,417,834
"Operating transfers (out) - component units" on Exhibit A-5	(601,194)
"Operating transfers in - primary government" on Exhibit A-5	4,764,654
"Operating transfers (out) - primary government" on Exhibit A-5	(103,750)
"Transfers in - primary government" on Exhibit A-9	59,178,429
Difference	<u>\$ (3,456,815) *</u>

* The financial data of MCC is presented in accordance with GAAP for colleges and universities under the "AICPA College Guide Model." Under this model, MCC recognizes as revenue and other additions to its unexpended plant fund balance, the appropriations of governmental agencies, at the time of appropriation. MCC capital appropriations funded by the County are not recorded as Operating Transfers Out to Component Units until expenditures are incurred by MCC. Because the measurement focus under the AICPA model differs from GAAP for governmental entities, the amounts shown as Due to Component Units and Due from Primary Government do not agree (see Note 6) and operating transfers between the primary government and component units do not agree. Both differences relate to revenue recognition by MCC prior to expenditure recognition by the County.

I) Federal and State Grant Programs

Included in the financial statements are expenditures and revenues related to Federal and State grant programs for which the County is the grantee. The reserve for encumbrances in the governmental fund types does not include \$4,106,816 of encumbrances related to these grants. When the expenditure occurs in the subsequent year, revenue will be earned based on the grant agreements, and resources will then be made available. The County believes that inclusion of such encumbrances as reserved fund balance would distort the unreserved fund balance.

COMPONENT UNITS

J) Reclassifications

The following reclassifications have been made to the component units' financial data for inclusion in the Montgomery County, Maryland Comprehensive Annual Financial Report to conform with the reporting entity concept. MCPS recognized in its Capital Projects Fund revenue of \$83,645,382 from the County. Certain financial information for the MCPS Capital Projects Fund is reclassified as follows for financial reporting purposes at the reporting entity level: \$109,528,345 is reclassified as Transfers In; and \$28,520,097 is reclassified as Deficit Fund Balance.

K) Reservation of Retained Earnings

MCPS retained earnings reserved at June 30, 2000, of \$38,037,699 represent amounts established for the payment of employee benefit claims. MCRA reserved retained earnings of \$276,264 represents commitments to spend financial resources in future periods.

L) Reservation and Designation of Fund Balance

Component unit reservations of fund balance, and the purpose of such reservations at June 30, 2000, are as follows:

Purpose of Reservation	MCPS	MCC	BUPI	Total
Encumbrances	\$ 64,756,207	\$ 7,799,637	\$ 170,301	\$ 72,726,145
Inventories	4,476,589	-	-	4,476,589
Prepays	2,768	-	-	2,768
Employees' pension benefits	750,873,296	-	-	750,873,296
Commitments for specified programs and emergency plant repairs and maintenance	-	643,109	-	643,109
Total Reserved Fund Balances	<u>\$ 820,108,860</u>	<u>\$ 8,442,746</u>	<u>\$ 170,301</u>	<u>\$ 828,721,907</u>

MCC designated fund balance of \$8,517,678 represents amounts designated for subsequent years' expenditures, amounts allocated for auxiliary enterprises and continuing education, and quasi-endowment funds.

M) Reconciliation of Beginning Fund Equities

During FY00, HOC adopted the U.S. Department of Housing and Urban Development's (HUD) Real Estate Assessment Center (REAC) as required by the Uniform Financial Reporting Standards. This conversion is effective for all Public Housing Authorities (PHAs) with fiscal years beginning on or after October 1, 1998. The overall effect of implementing these changes was a prior period adjustment of \$7,458,883 decreasing fund balance and the property, plant and equipment balance. This adjustment was due to changes in HUD capitalization policies. Soft modernization costs representing costs needed to finance activities incurred in connection with HUD capital projects, previously capitalized, and related accumulated depreciation were required to be written off through fund balance.

For FY00, MCPS beginning fund equities in the Combining Statement of Revenues, Expenses, and Changes in Fund Equity – All Proprietary Fund Types – Discretely Presented Component Units (Exhibit A-6) has been restated as follows:

Reclassification of Pension Trust Fund To Combined Statement of Changes in Net Assets (Exhibit 12)	\$ (681,904,456)
Removal of a component unit	(7,588)
Total restatement of beginning fund equities	<u>\$ (681,912,044)</u>

Removal of the component unit also resulted in a restatement of beginning cash and cash equivalents on Exhibit A-8 by \$7,588.

N) Reconciliation of Ending Fund Equities

MCPS fund equities at June 30, 2000, reconcile between the Combining Balance Sheet on Exhibit A-2, the operating statements on Exhibits A-3 and A-6, and the Statement of Changes in Plan Net Assets on Exhibit A-12 as follows:

	Net Assets of Component Units	Retained Earnings		Fund Balance		Total
		Reserved	Unreserved	Reserved	Unreserved	
Fund Balance per						
Exhibit A-3	\$ -	\$ -	\$ -	\$ 69,235,564	\$ (34,175,544)	\$ 35,060,020
Fund Equity per						
Exhibit A-6	1,483,398	38,037,699	1,758,086	-	-	41,279,183
Net Assets per						
Exhibit A-12	-	-	-	750,873,296	-	750,873,296
Totals	<u>\$ 1,483,398</u>	<u>\$ 38,037,699</u>	<u>\$ 1,758,086</u>	<u>\$ 820,108,860</u>	<u>\$ (34,175,544)</u>	<u>\$ 827,212,499</u>

O) Deficit Fund Balance

The \$34,175,544 MCPS unreserved deficit represents primarily a timing difference between the construction of capital assets and the County's planned FY01 issuance of long-term debt to fund that construction.

NOTE 12. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

A) Risk Management

Montgomery County, for itself and certain component units and other governments, maintains two self-insurance internal service funds. Montgomery County management believes it is more economical to manage its risks internally and set aside assets for claim settlements in these internal service funds.

One fund is maintained for Liability and Property Coverage under which participants share the costs of workers' compensation, comprehensive general, automobile and professional liability, fire and theft, the liability for errors, omissions, and other selected areas which require coverage. Commercial insurance is purchased for claims in excess of coverage by the self-insurance fund and for other risks not covered by the fund. In addition to all funds of Montgomery County, participants in this program include the Montgomery County Public Schools, the Montgomery Community College, the Maryland-National Capital Park and Planning Commission, the City of Rockville, the Montgomery County Revenue Authority, the Housing Opportunities Commission of Montgomery County, the independent fire/rescue corporations, the Bethesda-Chevy Chase Rescue Squad, the Housing Authority of the City of Rockville, the Town of Somerset, the Village of Martin's Additions, the City of Gaithersburg, the Bethesda Urban Partnership, Inc., and the Village of Drummond (from March 1-June 30, 2000). The liability for claims with respect to all participants transfers to the self-insurance fund, except for the Maryland-National Capital Park and Planning Commission which retains ultimate liability for its own claims.

The second fund is maintained for Employee Health Benefits under which participants share medical, dental, and life insurance. The Washington Suburban Transit Commission, the Bethesda Urban Partnership, Inc., Montgomery Community Television, the Strathmore Hall Foundation, Inc., and certain employees of the State of Maryland in addition to some of the participants in the Liability and Property Coverage Program, participate in this program.

Both internal service funds use the accrual basis of accounting. Payments to the Liability and Property Coverage fund by participants and recognition of the fund's liability for unpaid claims including those incurred but not reported, are based on actuarial estimates. For the Employee Health Benefits fund, charges to participants are based on actuarial estimates. Liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. During the fiscal year, there were no significant reductions in insurance coverage in either fund from the prior year. For the past four years, no insurance settlements exceeded insurance coverage in either fund. Changes in the balances of Claims Payable for self-insurance funds for FY00 and FY99 are as follows:

	Liability and Property Coverage	Employee Health Benefits
Balance July 1, 1998	\$ 38,456,000	\$ 7,129,152
Claims and changes in estimates	12,681,533	51,895,306
Claim payments *	(11,637,533)	(53,285,772)
Balance June 30, 1999	39,500,000	5,738,686
Claims and changes in estimates	17,271,271	52,434,999
Claim payments *	(15,561,271)	(53,198,566)
Balance June 30, 2000 **	<u>\$ 41,210,000</u>	<u>\$ 4,975,119</u>

* Includes non-monetary settlements and therefore write-offs of previously recorded litigation claims.

** Includes incurred but not reported claims of \$6,628,000 and \$4,975,119, for the Liability and Property Coverage and the Employee Health Benefits Self-Insurance Funds, respectively.

During FY00, the Liability and Property Coverage Fund incurred \$2,400,000 in policyholder dividends, which are classified as Returns of Contributions expense in the accompanying financial statements.

B) Litigation

In addition to those suits in which claims for liability are adequately covered by insurance, Montgomery County, Maryland is a defendant in various suits involving tort claims, violations of civil rights, breach of contract, inverse condemnation, and other suits arising in the normal course of business. In the opinion of the County Attorney, the estimated liability of the County in the resolution of these cases will not exceed \$3,000,000. In accordance with generally accepted accounting principles, \$300,000 of this amount has been reflected as a liability in the General Long-Term Debt Account Group, as the County's liability on certain claims appears to be probable.

C) Grants, Entitlements, and Shared Revenues

The County participates in a number of Federal and State assisted grant and/or entitlement programs, principal of which are the Community Development Block Grant, the Head Start Grant, Community Mental Health Grant, and the Medical Assistance Grant. These programs are subject to financial and compliance audits by the grantors or their representatives. The audits of most of these programs for, or including, the year ended June 30, 2000, have not yet been completed. In accordance with the provisions of the Single Audit Act of 1984 and Circular A-133, issued by the U.S. Office of Management and Budget, the County participates in single audits of federally assisted programs. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although management does not believe disallowed amounts, if any, would be material.

D) Landfill

The County, in its effort to provide for estimated capping and post closure maintenance costs for its landfill, accrues such costs, and recognizes those costs as expenses as the landfill is utilized. The October 9, 1991 U.S. Environmental Protection Agency (EPA) rule, "Solid Waste Disposal Criteria," established closure requirements for all municipal solid waste landfills (MSWLFs) that receive waste after October 9, 1991. The County has been accruing closure expenses since FY91 in an attempt to match the costs of closure against the revenues associated with the use of the landfill. The Governmental Accounting Standards Board Statement No. 18, issued in August 1993, expanded the items considered in the original EPA calculation of closure costs. The expanded requirements include post closure care for thirty years for landfills accepting refuse materials after October 1991. The Oaks Landfill closed on October 22, 1997, and the County began using out-of-County waste hauling during FY98. At the time the landfill was closed, total cumulative capacity used was 6,990,437 tons. The total closure and post closure costs are estimated at \$52,108,000, which has been fully accrued through June 30, 2000. This includes a retroactive restatement of the liability for disclosure purposes, which resulted in an increase of both the total estimated closure/postclosure costs and the actual costs disbursed by \$2,126,000, for operating expenses in prior years that are now viewed as includable costs. Of the total amount accrued, \$17,610,100 in actual costs has been paid out in prior years, and \$6,386,000 was paid in FY00, resulting in a net liability of \$28,111,900 at June 30, 2000. The current and non-current portions of the adjusted liability at year-end are estimated at \$3,825,800 and \$24,286,100 respectively. These costs are subject to change based on cost differences, changes in technology, or applications of laws and regulations. The County plans to use primarily operating cash to pay for these closure and post closure costs as they are incurred in the future.

E) Other Commitments

County proprietary funds have entered into contract commitments that remain uncompleted as of year-end. The amount of outstanding commitments at June 30, 2000, are as follows:

<u>Enterprise Funds:</u>	<u>Operating</u>	<u>Capital</u>	<u>Total</u>
Liquor	\$ 126,571	\$ -	\$ 126,571

Total Proprietary Funds	<u>\$ 9,818,850</u>	<u>\$21,706,989</u>	<u>\$31,525,839</u>

A portion of the capital encumbrances, to be funded from current receipts, is included in reserved retained earnings.

As of June 30, 2000, the County has \$7.56 million in outstanding offers of loans and/or grants that have been extended to various companies under its Economic Development Fund programs. To help fund such offers, the designated fund balance of the Economic Development Fund at the end of the year is typically reappropriated in the following year.

NOTE 13. SUBSEQUENT EVENTS

On July 27, 2000, the County Council introduced, and subsequently approved, legislation to increase the level of authorized general obligation bond principal by an additional \$240,200,000, effective October 27, 2000.

NOTE 14. JOINT VENTURES

The Primary Government participates in six joint ventures which are not included as part of the reporting entity. The Primary Government does not have a separable financial interest in any of the joint ventures. Therefore, no "Investment in Joint Ventures" is included in the combined financial statements. Audited financial statements are available from each of the six organizations. A general description of each joint venture follows:

Maryland-National Capital Park and Planning Commission (M-NCPPC)

M-NCPPC is a body corporate of the State of Maryland established by the Maryland General Assembly in 1927. M-NCPPC is a bi-county agency. The Board of Commissioners consists of ten members, five each from Montgomery and Prince George's Counties. The Montgomery County members are appointed by the County Council with the approval of the County Executive. The counties' oversight of M-NCPPC also includes budget approval over their respective shares of the operating and capital budgets. Each county is also required by law to guarantee the general obligation bonds of the Commission issued for its jurisdiction.

At June 30, 2000, M-NCPPC had outstanding notes payable and bonds payable in the amount of \$165,682,539, of which \$17,297,539 was self-supporting. Of the total amount payable, \$9,363,808 represented debt due within one year. Generally, debt of M-NCPPC is payable from its resources; however, the participating counties must guarantee payment of interest and principal on the debt that is not self-supporting. Montgomery County's contingent liability for non self-supporting M-NCPPC debt at June 30, 2000, is \$32,380,000, which represents general obligation bonds outstanding for the Montgomery County jurisdiction at year-end.

Washington Suburban Sanitary Commission (WSSC)

WSSC is a bi-county instrumentality of the State of Maryland created to provide water supply and sewage disposal services for Montgomery and Prince George's Counties. The two participating counties share equal control over WSSC in the selection of the six-member governing body, budgeting authority, and financing responsibility.

At June 30, 2000, WSSC had outstanding notes payable and bonds payable in the amount of \$1,681,620,700, of which \$1,667,310,700 was self-supporting. Of the total amount payable, \$207,354,000 represented debt due within one year. Pursuant to Section 4-101 of Article 29 of the Annotated Code of Maryland (1997 Replacement Volume and 1998 Cumulative Supplement), the County must guarantee payment of principal and interest on WSSC bonds, unless the WSSC waives such guarantee requirement in accordance with Section 4-103 of Article 29. WSSC has waived such guarantee requirement with respect to all outstanding WSSC bonds. At June 30, 2000, all WSSC debt relating to the County is self-supporting.

Washington Suburban Transit Commission (WSTC)

The Washington Suburban Transit District (WSTD), encompassing Prince George's and Montgomery Counties, Maryland, was chartered by the State of Maryland in 1965 to, among other things, coordinate and participate in the formulation of the transit plan of the Washington Metropolitan Area Transit Authority for WSTD. The WSTD is governed by the WSTC, which is composed of three representatives each from Prince George's and Montgomery Counties and one representative from the Maryland Department of Transportation. One commissioner from each county is appointed by the Governor of the State of Maryland, and the other two commissioners are appointed by the chief executive officer of the organizations they represent. The two participating counties have equal budgetary authority and financial responsibility for WSTC; however, both are required to act in consultation with the State Department of Transportation. WSTC's liabilities are limited to funds payable from the participating counties and the State under outstanding grant agreements and State legislation. Montgomery County made an operating contribution totaling \$41,974 to WSTC during FY00. The FY00 WSTC Annual Financial Report was not available when this report was published.

Washington Metropolitan Area Transit Authority (WMATA)

WMATA was created in 1967 by interstate compact among the states of Maryland and Virginia and the District of Columbia. The Authority's primary function is to plan, develop, finance, and operate transit facilities serving the Washington metropolitan area. The governing authority of WMATA is a twelve-member Board of Directors. Maryland, Virginia, and the District of Columbia each appoint four directors. Of Maryland's four directors, two are appointed by the Governor of the State of Maryland, and one each is appointed by the respective county from among its appointees to WSTC. Since WSTC is a joint venture of Montgomery and Prince George's Counties, Montgomery County participates in WMATA through WSTC.

Montgomery County is committed to participation in the WMATA and its regional Metro Rapid Rail and Metro Bus programs. Pursuant to Section 87-13 of the Montgomery County Code, the County guarantees its obligations imposed on the Washington Suburban Transit District by contracts or agreements with WMATA. As a result of State legislation, the State of Maryland is required to fund 100 percent of the County's share of rail and bus operating expenses. In addition, the State is required to fund 100 percent of the annual debt service on revenue bonds issued by WMATA in connection with the construction of the Metro Rapid Rail System. The County's share of the cost of construction of the Metro Rapid Rail System has been totally assumed by the State. In addition, State legislation mandates, effective in FY00, that the State provides 100 percent of the County's share of WMATA capital equipment replacement costs.

Under State statutes, the State of Maryland is required to cover 100 percent of the combined operating deficit of WMATA and Ride-On assuming that 40 percent (effective in FY01) of gross operating costs are recovered by revenues. The 40 percent criteria will revert to 50 percent effective in FY05 unless permanently set at 40 percent by the State legislature prior to FY05.

A summary reflecting the funding of Montgomery County's share of WMATA's activities for FY00 is as follows:

Bus operating subsidy	\$ 23,832,400
Rail operating subsidy	24,153,878
ADA Service	4,607,412
Metrobus and Metrorail capital replacement	5,414,531
Debt service on WMATA revenue bonds	4,867,451
Total	<u>62,875,672</u>
Less: Current State aid	<u>(62,875,672)</u>
Net subsidy	<u>\$ -</u>

At June 30, 2000, WMATA had outstanding debt of \$259,311,000, of which \$14,095,000 represented debt due within one year. All of this debt is payable from resources of WMATA.

For FY00 and prior years, the County included in the appropriation for the Mass Transit Facilities Special Revenue Fund amounts relating to the State's funding of the Montgomery County portion of WMATA operations. Beginning in FY00, it was determined that the State's funding no longer qualified for reporting in the Mass Transit Fund. Actual revenues and expenditures in this fund were approximately \$57 million less than budget due to this change in accounting.

Metropolitan Washington Council of Governments (COG)

COG is a multi-governmental organization in which local governments unite to solve area-wide problems. Montgomery County is a participant in COG along with other Washington metropolitan governments. The governing body of COG is a Board of Directors. Each participating governmental unit is allotted chairs on the Board in accordance with a specified population formula. Budgetary authority rests with the Board. Member dues finance approximately 20 percent of the total funding for COG, with state and Federal grants and private contributions providing the remainder. COG does not utilize debt financing. As a participating government in COG, Montgomery County paid FY00 membership dues amounting to \$578,492.

The FY00 COG Annual Financial Report was not available when this report was published.

Northeast Maryland Waste Disposal Authority (NEMWDA)

NEMWDA is a body politic and corporate and a public instrumentality of the State of Maryland. NEMWDA was established to assist the political subdivisions in the Northeast Maryland Region and the private sector in waste management and the development of waste disposal facilities adequate to accommodate the region's requirements for disposal of solid waste. NEMWDA has the following seven member jurisdictions from the State of Maryland: Montgomery County, Baltimore County, Anne Arundel County, Harford County, Howard County, Carroll County, and City of Baltimore. The Maryland Environmental Service is an ex-officio member.

NEMWDA issued bonds to fund the construction of the Montgomery County Resource Recovery Project (Project). At June 30, 2000, NEMWDA had outstanding bonds payable in the amount of \$329,385,000. All of these outstanding bonds are related to this Project and are limited obligations of NEMWDA, payable solely from the Project revenues and other amounts. Since the Project is owned and operated by NEMWDA, the bonds and related activities are included in the financial statements of NEMWDA.

This Project became operational in August of 1995. NEMWDA has entered into a service contract with the County under which the County pays a waste disposal fee calculated in accordance with the agreement. The waste disposal fee is comprised of an amount equal to debt service, facility fees, alternative disposal costs, NEMWDA administrative costs, operating costs, and NEMWDA component revenue.

NOTE 15. EMPLOYEE BENEFITS

A) Deferred Compensation

The employees of Montgomery County, Maryland may participate in the Montgomery County Deferred Compensation Plan (the Plan). The purpose of the Plan is to extend to employees a deferred compensation plan pursuant to Section 457 of the Internal Revenue Code of 1954, as amended. During FY99, in accordance with Federal legislation, the assets of the Plan were placed in trust for the sole benefit of participants and their beneficiaries. Trust responsibilities were assigned to the Board of Investment Trustees (Board). This Plan is therefore accounted for and is included in the Combined Financial Statements as an expendable trust fund. The Board has contracts with Hartford Life Insurance Co. and Fidelity Investments. Under the Plan, contributions are sent to these companies for different types of investments as selected by the employees. A separate account, which reflects the monies deferred, the investment of the monies, and related investment earnings, is maintained for each participant. Withdrawals are made upon retirement, termination of employment, death, and/or in unforeseeable emergencies. Total contributions to the Plan during FY00, including rollovers from other plans of \$181,079, amounted to \$17,957,341 and total expenditures amounted to \$4,071,024. Current year investment earnings amounted to \$20,634,959. Total investments held by fiscal agents at June 30, 2000, were \$213,519,779.

B) Vacation, Sick Leave, and Other Compensated Absences

Employees of Montgomery County, Maryland earn vacation, compensatory, and sick leave in varying amounts. In the event of termination, employees are reimbursed for accumulated vacation and compensatory leave. Employees are given credited service toward retirement benefits for accumulated sick leave at retirement. Earned but unused vacation and compensatory leave is accounted for in the proprietary funds as a current accrued liability. The liability for unused vacation and compensatory leave payable from governmental fund types is recorded in the General Long-Term Debt Account Group because it will be paid from future periods' resources. Current portions applicable to governmental funds have been determined to be immaterial. Sick leave earned but not taken by June 30, 2000, totaling 4,912,713 hours approximates \$139,548,555 based on the salary scale in effect at that date. Earned but unused sick leave is not recorded as a liability because upon termination, sick leave is not paid. Sick leave is paid only in the event of employee illness - at which time the payments will be made from current resources.

C) Insurance Benefits

Montgomery County, Maryland provides comprehensive insurance programs to its employees. These benefits include but are not limited to medical and dental benefits, long-term disability, term life, and accidental death and dismemberment insurance. The cost of each insurance program is shared between the employer and the employees. During FY00, the County and its employees contributed \$31,544,195 and \$8,569,424, respectively. Employees of the Montgomery County Revenue Authority, Housing Opportunities Commission and Bethesda Urban Partnership, Inc. participate in the comprehensive insurance program of the County. Employer contributions totaled \$97,435, \$934,242, and \$51,716 for these component units, respectively, for FY00.

D) Postemployment Benefits

In addition to the pension benefits described in Note 16, the County, by authority of various Montgomery County Council resolutions, provides certain postemployment health care and life insurance benefits to all employees who retire under the Employees' Retirement System of Montgomery County, Maryland and have a minimum of five years membership in a health plan offered by the County. Under the plan, retirees and employees contribute 20 percent toward the cost of medical, dental, and life insurance, with the County contributing up to 80 percent of the insured amounts. Retirees may participate in the plan for a length of time equal to the time the retiree worked for the County. After that, the individual is required to pay the full cost of the insurance. All employees hired after January 1, 1987, are covered by a new plan. Under this plan, the retiree and County pay an equal share (50/50) of the insurance expense starting with five years of County service. This changes by two percent for each year of credited service up to a 70 percent County, 30 percent retiree contribution after the fifteenth year. Under this plan, employees have a lifetime insurance benefit. Currently, 3,031 retirees meet those eligibility requirements.

The plan is funded with the contributions from the Group Insurance Reserve Expendable Trust Fund, an appropriation in a non-departmental account of the General Fund, dividends, and pre-funded contributions from active employees. Expenses are recognized as retirees report claims, with an amount included to provide for incurred but not reported claims. The employer contributions were \$11,637,200 for FY00; retired employee contributions were \$4,126,823. The Employee Health Benefits Self-Insurance Internal Service Fund accounts for this fiscal activity.

NOTE 16. PENSION PLAN OBLIGATIONS

PRIMARY GOVERNMENT

A) Defined Benefit Pension Plan

Plan Description - The Employees' Retirement System of Montgomery County (System) is a single-employer defined benefit pension plan sponsored by Montgomery County. Other agencies or political subdivisions have the right to elect participation. This Plan is closed to the employees hired on or after October 1, 1994, except public safety bargaining unit employees. Substantially all employees hired prior to October 1, 1994, of Montgomery County, the Montgomery County Revenue Authority, the Housing Opportunities Commission of Montgomery County, the independent fire/rescue corporations, the Town of Chevy Chase, the Strathmore Hall Foundation, Inc., the Washington Suburban Transit Commission, certain employees of the State Department of Assessments and Taxation, and the District Court of Maryland are provided retirement benefits under the System. The System, established under Chapter 33 of Montgomery County Code, 1994, as amended, is a contributory plan with employees contributing a percentage of their base annual salary, depending on their group classification which determines retirement eligibility. Beginning for FY00, a publicly available annual report that includes financial statements and required supplementary information for the System, the Defined Contribution Plan (see Note 16B), and the Deferred Compensation Plan (see Note 15A), can be obtained by writing the Board of Investment Trustees, Montgomery County Government, 101 Monroe Street, Rockville, MD, 20850.

The Board of Investment Trustees (Board) has the exclusive authority to manage the assets of the System. The Board consists of nine trustees and functions as part of Montgomery County. Effective in FY95, the County established a Defined Contribution Plan under which employees covered under the Defined Benefit Plan may make an irrevocable decision to move into the Defined Contribution Plan. Members who transfer into the new Plan will have their credited service frozen in the Defined Benefit Plan and their accumulated balances will remain there.

All covered full-time employees of the County and participating agencies must become members of the System as a condition of employment. All covered career part-time employees of the County and participating agencies may become a member on an individual basis.

Number of retirees and beneficiaries currently receiving benefits	3,869
Number of terminated employees entitled to benefits but not yet receiving them	302
Number of current active employees	6,094

Effective July 1, 1978, the System was divided into two groups: the Integrated Retirement Group and the Optional Retirement Group. The System, or Plan, is operated under one trust where assets accumulated for the payment of benefits may legally be used to pay benefits or refunds of all members of the trust, without regard to the different groups. The Integrated Retirement Group which provides full retirement benefits until the member reaches age 65, with supplemental benefits to Social Security thereafter, and the Optional Retirement Group which provides full retirement benefits for life. Employees hired after July 1, 1978, may only participate in the Integrated Retirement Group; however, employees hired prior to July 1, 1978, participate in the Optional Retirement Group, if not electing to convert to the Integrated Retirement Group. Under the provisions of the Integrated Retirement Group, the annual contribution of all members is 3 percent to 3.75 percent of regular annual earnings up to the maximum Social Security base, and 6 percent to 8.5 percent of regular annual earnings in excess thereof. Upon election to participate in the Integrated Retirement Group, Optional Retirement Group members are refunded their annual contribution which exceeded the amount that would have been paid had the contribution under the Integrated Retirement Group been in effect from date of their enrollment in the System to date of election, plus credited interest thereon. For those members who elect to remain in the System under the Optional Retirement Group, the contribution rate remains at 6 percent to 8.5 percent of their base annual salary.

Employees' contributions are credited to each member's reserve account, which earns interest at the rate of 4 percent per annum based on the balance accumulated in the member's account at the beginning of the year. Also, members may purchase prior service credits under certain conditions. Normal retirement benefits are 2 percent of the final 12 months' regular basic earnings for members enrolled prior to July 1, 1978, or 2 percent of the final 36-month average for members enrolled after June 30, 1978, multiplied by years of credited service (maximum 36 years) adjusted for cost of living. Benefit provisions are established under Section 33-42 of the Montgomery County Code of 1994, as amended. For almost all members, normal retirement is age 60 with five years of service or age 55 with thirty years of service in Groups A and H (nonpublic safety employees), age 55 with fifteen years of service or age 46 with twenty-five years of service in Groups E and F (police and corrections public safety employees), or age 55 with fifteen years of service or age 46 with twenty-five years of service or twenty-five years of actual service regardless of age in Group G (firefighters public safety employees).

Members who retire early receive normal retirement benefits reduced by a minimum of 2 percent to a maximum of 60 percent depending on the number of years early retirement precedes normal retirement. Disability benefits are contingent upon service-connected or nonservice-connected occurrences and total or partial permanent disablement. Death benefits are contingent upon service-connected or nonservice-connected occurrences. Effective July 1, 1989, when a member terminates employment before his retirement date and after completion of five years of credited service, he may elect to leave his member contributions in the System and receive a pension upon reaching his normal retirement date, based on the amount of his normal retirement pension that has accrued to the date of termination. Vested benefits and eligibility requirements are described under Section 33-45 of the Montgomery County Code of 1994, as amended. A member who terminates employment prior to five years of credited service is refunded his accumulated contributions with interest.

Legislation enacted by the County Council in November 1999 required the Chief Administrative Officer to establish Deferred Retirement Option Plans, or DROP Plans, that allow any employee who is a member of a specified membership group or bargaining unit, and who meets certain eligibility requirements, to elect to "retire" but continue to work for a specified time period, during which pension payments are deferred. When the member's participation in the DROP Plan ends, the member must stop working for the County, draw a pension benefit based on the member's credited service and earnings as of the date that the member began to participate in the DROP Plan, and receive the value of the DROP Plan payoff. These DROP Plans were established during FY00. Activity under the DROP Plans was insignificant in FY00.

Summary of Significant Accounting Policies - The accrual basis of accounting is used for the System. Under this method, revenues including contributions are recorded when earned, expenses including benefits and refunds paid are recorded at the time liabilities are incurred, and allocation of depreciation is recorded for the fiscal period. Investments are stated at fair value or cost plus accrued interest. The group annuity contract is stated at book value. The System invests in derivatives in accordance with the policy of the Board of Investment Trustees. During FY00 the System invested directly in various derivatives including asset-backed securities, collateralized mortgage obligations, bond index future contracts, forward currency contracts, and floating rate securities. The System entered into these investments either to increase earnings or to hedge against potential losses, but these investments were not used to leverage the portfolio. These investments generally contain market risk resulting from fluctuations in interest and currency rates. The credit risk of these investments is associated with the creditworthiness of the related parties to the contracts.

Concentrations - At June 30, 2000, \$259,610,470 (13.0%) of the Pension Trust Fund's net assets available for benefits are invested in the State Street Bank and Trust Company Flagship S & P 500 Index Fund, which invests in the 500 stocks of the S & P Index.

Funding Policy, Contributions, and Reserves - Required employee contribution rates varying from 3 percent to 8.5 percent of regular earnings are fixed and specified under Section 33-39 (a) of the Montgomery County Code of 1994, as amended. The County and each participating agency are required to contribute the remaining amounts necessary to fund the System, using the actuarial basis as specified in Section 33-40 of the Montgomery County Code of 1994, as amended. Under the current procedures, an actuarial valuation is performed to determine the employer contribution rate for the System. The contribution rate developed is a percentage of active member payroll. The dollar amount of each year's employer contribution is determined by applying the contribution rate to the actual payroll for each year. Funding of the System during the period is the sum of the normal costs and amortization of the unfunded accrued liability over a forty-year period.

Annual Pension Cost and Net Pension Obligation - The annual pension cost and the net pension obligation of the Montgomery County, Maryland and the participating agencies for FY00 were as follows:

	<u>Amount</u>
Annual required employer contributions (ARC)	\$ 44,347,078
Contributions made (100% of ARC)	<u>(44,347,078)</u>
Net Pension Obligation	<u><u>\$ -</u></u>

The annual required contributions for FY00 were based on an actuarial valuation as of June 30, 1998, the latest valuation available on the date the County Council was required to approve the appropriation resolution.

The actuarial valuation for the fiscal year ended June 30, 2000, is based upon the projected unit credit actuarial cost method and includes these significant assumptions, which have not changed from the prior year:

- Investment return: 8 percent compounded annually.
- Salary increase: 4.0 percent compounded annually plus merit and promotional increases based on age.
- Social Security wage base: 4.5 percent annual increases.
- Consumer Price Index: Approximately 4.0 percent annual increases.
- Retirement age: Ages varying from 41 years to 68 and over.
- DROP participation: 50 percent for Group F and 75 percent for Group G.
- Turnover: Rates varying from no turnover to 8 percent based on years of service.
- Mortality: 1983 Group Annuity Mortality Table.
- Disability: Based on County experience, rates varying from no disability to 2 percent, depending on gender.
- Actuarial value of assets: Incorporates a five-year phase-in of market gains and losses.
- Amortization method: Level dollar amount.
- Amortization period: 40-year period based on a separate closed period for each base.

Three-Year Trend Information

Fiscal Year	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
1998	\$ 51,097,622	100 %	\$ -
1999	47,462,625	100	-
2000	44,347,078	100	-

Other - On August 1, 1986, Montgomery County entered into an agreement with the Aetna Life Insurance Company (Aetna). Under the terms of this agreement, Aetna agreed to accept future responsibility for making the monthly payments being paid to members retired prior to January 1, 1986, and other amounts previously guaranteed by Aetna under the group annuity contract, including cost of living increases effective prior to January 1, 1986, with respect to such annuity payments in exchange for a lump sum payment of \$154,168,890. Aetna agreed that by virtue of its acceptance of this amount, Montgomery County has no obligation with respect to supporting the portion of the payments described above; the County is liable for cost of living increases effective January 1, 1986, and later. As a result of this agreement, the portion of the pensions paid by Aetna under this agreement have not been recognized as expenses. The group annuity contract originally valued at \$154,168,890 is being amortized over a period of 45 years using a ratio of yearly projected annuities to total projected annuities applied against the value of the group annuity contract. The unamortized value at June 30, 2000, is \$67,209,405.

* Actuarial valuation is performed as of June 30 of each fiscal year.

** Annual required employer contributions and actual employer contributions made are the same.

Notes to Required Supplementary Information (Unaudited) - The actuarial method and significant assumptions used for the most recent year reported in the required schedules are described earlier in this Note. The AAL as of June 30, 1999, includes \$55 million relating to the establishment of DROP plans described earlier in this Note and changes to retirement formulas resulting from labor negotiations.

B) Defined Contribution Plan

Plan Description - Employees' Retirement Savings Plan (Plan) is a single-employer defined contribution plan established by Montgomery County under Chapter 33 of the Montgomery County Code. Other agencies or political subdivisions have the right to elect participation. All non-public safety and certain public safety (not in bargaining unit) employees hired on or after October 1, 1994, are covered under this Plan. In addition to Montgomery County, other participant agencies include the Montgomery County Revenue Authority, the Housing Opportunities Commission of Montgomery County, the independent fire/rescue corporations, the Town of Chevy Chase, the Strathmore Hall Foundation, Inc., and the Washington Suburban Transit Commission. Employees covered under the defined benefit plan may make an irrevocable decision to move into this Plan. At the end of FY00, there were 2,544 employees who were covered under this Plan.

Under this Plan, employees contribute 3 percent of regular earnings up to Social Security wage rate and 6 percent above Social Security wage rate. The employer contributes 6 percent and 10 percent of regular earnings for non-public safety and public safety employees respectively. The employer also contributes an additional .50 percent of regular earnings to defray expenses of the Plan. Employee contributions are always vested under this Plan and employer contributions are vested after 3 years of service or upon death, disability, or retirement age of the employee. The Board of Investment Trustees monitors the Plan and offers investment options to the participating employees. Required employer and employee contributions made to this Plan for FY00 were \$3,654,243 and \$2,082,800, respectively.

Summary of Significant Accounting Policies - The accrual basis of accounting is used for this Plan.

Under this method revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Investments are stated at fair value or cost plus accrued interest and are valued primarily on the basis of market quotations. If the quotations are not readily available then investments may be valued by another method which reflects fair value.

C) Other

In addition, Montgomery County contributed \$603,991 during FY00 for pension costs for a few employees/retirees who elected to remain in the State plan. This amount includes the current service costs plus an amount sufficient to amortize the prior service cost over a forty-year period ending June 30, 2020.

COMPONENT UNITS

The Montgomery County Revenue Authority and the Housing Opportunities Commission participate in the Employees' Retirement System of Montgomery County. The employer and employee contributions of these component units are reflected in the disclosure noted above. Montgomery County Public Schools and Montgomery Community College participate in various Maryland State Teachers and Employees Pension and Retirement Plans in addition to maintaining their own plans. Detailed disclosures of these plans are available in the audited financial statements of these component units. The Bethesda Urban Partnership, Inc. maintains a simplified employee pension plan.
